## INTRODUCTION

Earlier 1961 Census reports have shown the Canadian population by marital status and sex (Bulletin 1.2-4), and ethnic groups and sex (Bulletin 1.2-5). This report provides additional information on these subjects by presenting a cross-classification of marital status by ethnic groups and sex for provinces, cities and towns of 30,000 and over and census metropolitan areas. For Canada, an additional classification of marital status by ethnic groups, age and sex is provided.

In the census a person's ethnic or cultural group is traced through his father. In 1961, each person was asked the question, "To what ethnic or cultural group did you or your ancestor (on the male side) belong on coming to this continent?" The language spoken at that time by the person, or his paternal ancestor was used as an aid in the determination of the person's ethnic group. Special instructions were provided in cases where the language criterion was not applicable.

The totals shown under the heading "married" in the tables of this report include all married persons whether living together or living apart for any reason unless a divorce has been obtained. The age classifications are based on a definition which specifies completed years of age at last birthday prior to the Census date of June 1, 1961.

Dans des rapports antérieurs du recensement de 1961, la population du Canada était répartie selon l'état matrimonial et le sexe (Bulletin 1.2-4) et par groupe ethnique et sexe (Bulletin 1.2-5). Le présent rapport contient d'autres renseignements sur ces sujets et présente un classement recoupé de l'état matrimonial par groupe ethnique et sexe pour les provinces, les cités et villes de 30,000 habitants et plus, et les zones métropolitaines de recensement. Il donne, pour le Canada, un classement supplémentaire de l'état matrimonial par groupe ethnique, âge et sexe.

Au recensement, le groupe ethnique ou culturel d'une personne est déterminé d'après celui du père. En 1961, chaque personne devait répondre à la question suivante: "A quel groupe ethnique ou culturel appartenait votre ascendant paternel (ou vous-même) lors de son arrivée en Amérique?" La langue que parlait à ce moment-là la personne, ou son ancêtre paternel, a aidé à déterminer son groupe ethnique. Des directives spéciales visaient les cas où la langue ne pouvait servir de critère.

Les chiffres donnés sous la rubrique "mariés" dans les tableaux du présent rapport comprennent toutes les personnes mariées vivant ensemble ou vivant séparées pour une raison quelconque à moins qu'elles n'aient obtenu un divorce. Les classements par âge sont fondés sur une définition fixant l'âge en années révolues au dernier anniversaire antérieur au 1er juin 1961, date du recensement.
